

Strong and Robust Character

From the new front grille, the vehicle's bold and distinctive visage heralds your approach with dynamic elegance, attracting admiring looks wherever you go.

Headlamp with Follow-me-home **Function**

Halogen, Projector type headlamp on low beam, Multireflector on high beam. Equipped, with Follow-me-home Function (10 seconds after remote door locks).

Rear Combination Lamp

3 dimensional design LED tail lamps and stop lamps with long vertical light guides. *(GLX)

Fog Lamp Robust looking fog lamp bezel.

*(GL / GLX)

Front Grille

New modern looking front grille design.

Side Mirror

Electric folding side mirror with integrated signal lamp *(GLX)

Tailgate

New tailgate design with chrome accent and "Hybrid" emblem

Chrome Door Handle

*(GLX)

CLASS ABOVE INTERIOR QUALITY

Rear Bumper Reflector

The Ertiga provides comfortable seating for up to seven people. The seats are arranged in three rows and can be easily reconfigured to suit the needs of the moment, your whether you're carrying family and friends, recreational gear, or other bulky items. Whenever your seating needs change, the Ertiga offers a simple, practical solution.

The Ertiga welcomes you to the cabin with smart, upscale dashboard and door trim, richly textured two-tone upholstery, and state-of-the-art instrumentation.

Easy-to-access luggage space

The rear luggage area has a capacity of 199-litres* and the versatile 50:50 split luggage board offers concealed storage for small valuable items when lowered, and additional room for tall items when removed.

*Measured with the luggage board lowered using the German Association of the Automotive Industry (VDA) method.

FEATURES AND FUNCTIONS

New Stylish meter cluster

The elegant speedometer, tachometer keep you clearly informed of vital information. Subtle design details and a precision finish contribute to driving pleasure.

Radio

Equipped with

AM/FM, Bluetooth,

USB Connectivity,

and Smartphone

linkage for Android

Keyless push start system

When carrying the remote-control key, you can lock or unlock the doors with the press of a door button, and start the engine by pressing the engine start button.

*(GLX)

10:00 AM

Steering Wheel The D-shaped steering wheel with integrated audio system controls and premium quality design accents lets you stay fully in command on winding roads and busy city streets.

D-shape

Cruise control

Cruise control can be activated via a button on the steering wheel, allowing you to release the accelerator pedal during highway driving to reduce fatigue on long trips. *(GLX)

Automatic front air conditionner

The automatic AC maintain precise cabin temperature to keep passenger comfortable. *(GLX)

5-speed manual trans-

mission. Whichever you

delivery.

choose, you get excellent

fuel efficiency and power

Ventilated cup holders Keep your drinks cool

with ventilated cup holders.a *(GLX)

Multi-information Display (MID)

4.2 inch, full color TFT LCD provides useful information including Hybrid operation display.

The headlamps automatically turns on when the vehicle senses that it enters a dimly lit area like a tunnel or when the vehicle senses that its already night time. It also turns off when it sense there is enough illumination on the road. *(GLX)

SMART HYBRID VEHICLE BY SUZUKI

SHVS is a lightweight and compact hybrid system that combines an integrated Starter Generator (ISG) and 12V lithium-ion battery to deliver fuel efficiency with less carbon emission while delivering spirited response.

COMPONENTS OF SHVS

Powerful, fuel-efficient 1.5-litre petrol engine

Spirited response meets high fuel efficiency in the Ertiga's compact 1.5-litre petrol engine. Producing impressive torque for quick acceleration, it features proven Suzuki technology in every detail.

engine start

Engine Auto Stop Start system (EASS)

EASS system automatically stops the engine when the vehicle stops (e.g. at traffic lights) to prevent unnecessary fuel consumption and help limit exhaust emissions and engine noise.

12V Lithium Ion Battery

- Supply power to ISG motor to provide motor assist.
- Supply power to electrical components.
- Store electrical energy generated by ISG.
- Excellent regenerative efficiency.

Integrated Starter Generator

- Replaced conventional alternator
- Function as a generator that charges battery.
- Function as an electric motor that provides assistance during standing start and acceleration.

SHVS BASIC OPERATION

The ISG not only ensures quick and quiet engine restarts, it also provides electric motor power assistance for fuel-efficient acceleration, and generates power to charge the batteries when decelerating.

Engine auto stop

At traffic lights, electrical components are powered by batteries while the engine stops to conserve fuel.

Restart

The ISG functions as a starter motor to quietly and smoothly restart the engine.

Take-off / Acceleration

The ISG assists the engine when starting from a standstill or when accelerating, improving fuel efficiency.

* Operation varies according to battery status and other conditions.

Deceleration

The ISG uses deceleration energy to generate electricity and efficiently charge the vehicle's batteries.

SAFETY AND SECURITY

Electronic Stability Program (ESP®)*

ESP help you control the vehicle during cornering, and assist you in maintaining traction when

accelerating on loose or slippery road surfaces. If wheel slip is detected, ESP automatically regulates engine output and selectively applies the brakes to help you maintain control.

SRS airbag system

SRS airbags to help protect the driver and front-seat passenger in case of a frontal collision.

Anti-lock Braking System (ABS)

In an emergency braking situation, ABS keeps the wheels from locking up to prevent skids and assist you in maintaining steering control.

Pedestrian injury mitigating body

Bonnet, front bumper, front windscreen wiper area, and other front-end components are designed to absorb impact with the aim of mitigating head and leg injuries in the event of a collision with a pedestrian.

Reverse parking sensor & rearview camera

Ultrasonic sensors detect obstacles when in reverse gear, and audible alerts sound to indicate your approximate distance from the obstacles as you approach. Reverse camera that shows the view of the rear on the audio system display.

*(GLX) **(GL- Reverse sensor only)

Total Effective Control Technology (TECT)

Suzuki's advanced highly protective TECT body extensively employs ultra high-tensile steel to increase rigidity, reduce weight, and more efficiently absorb and disperse impact energy in the event of a collision. Impact load paths underneath the engine compartment further mitigate damage in the event of a frontal collision at higher speeds.

HEARTECT platform

The smoothly curving frame increases underbody stiffness that delivers excellent fundamental vehicle performance while also contributing to collision safety by efficiently dispersing energy.

Hill Hold Control

Hill hold control is designed to prevent the vehicle from rolling backwards during standing starts on slopes by engaging the brakes for up to two seconds after the driver removes pressure from the brake pedal to depress the accelerator. *(GL AT and GLX)
